

A&B Deburring

TR200 Cleaning Compound

TR200 cleaning compound is a moderately alkaline, powdered cleaning concentrate for removing oils, lubricants, soils, and other contaminants in vibratory and tumble finishing equipment. TR200 cleaning compound exhibits excellent rust inhibit characteristics, making it an ideal compound for ferrous metal deburring. In addition to cleaning and inhibiting, TR200 also keeps media sharp and free from glazing.

Key Performance Attributes:

- Effective at 2-4 ounces/gallon water.
- Provides excellent cleaning of grease, oils and lubricants.
- Excellent for ceramic deburring applications.
- Provides moderate corrosion resistance on ferrous metals.

Specifications:

Appearance:	White crystalline solid
Specific gravity:	1.7
PH concentrate:	12.5
PH 1% solution:	12.4

Caution...

Avoid prolonged contact with skin or prolonged inhalation of dust. Prolonged overexposure may cause severe burns, primary irritant dermatitis and damage to the upper respiratory tract. When proper handling procedures are followed, this product does not present severe hazards to health.

First Aid...

For skin contact, flush affected area with clear water.
Flush eyes with water for 15 minutes.
If irritation persists, seek prompt medical attention.
If ingested, gives several glasses of milk or water and call physician.

Waste Disposal....

Biodegradable and drain safe for most municipalities.
Consult local authorities prior to disposal.
