

TR285L Ultrasonic Cleaning Compound

TR285L is an active liquid detergent designed expressly for use in ultrasonic cleaning applications. It is safe on both hard and soft metals.

TR285L is recommended for applications that contain moderate amounts of crude or protein soil deposits.

TR285L reduces surface and interfacial tensions on the surface to allow for quick emulsification of crude and protein based contaminants.

TR285L Has moderate foam and is fortified with silicates.

TR285L is used at the rate of 2-4 ounces per gallon of water added to the system. Heavier contamination will require higher dilution rates.

PHYSICAL DATA

PHYSICAL FORM	Liquid	WATER SOFTENING	Good
ODOR	Non-specific	EMULSIFICATION	Excellent
SOLUBILITY	Complete	CORROSION INHIBITION	Good
COLOR	Purple		
SPECIFIC GRAVITY	1.06		
PH WORKING SOLUTION	12.5		
FLASH POINT	None		
FOAM	Moderate		

WARNING: Eye & Skin Irritant

- Goggles and gloves should be worn when handling this product.
- Contact with eyes can cause tissue damage and irritation. Should contact occur, flush eyes with water for 10 minutes. Use boric acid eye wash solution if available. If irritation persists, get medical attention.
- Contact with skin should be washed with soapy water. Remove contaminated clothing and wash before reuse.
- This material contains sodium silicate (CAS reg. No. 1344-09-8) which is identified as a hazardous chemical under the criteria of OSHA Hazard Communication Standard (29CFR.1910.1200).

WASTE DISPOSAL:

- This product is biodegradable.
- Consult local authorities prior to disposal.
