

A&B Deburning

TR300 Burnishing Compound

TR300 is a mildly alkaline, powdered burnishing concentrate for brightening all metals in vibratory and tumbling finishing equipment. TR300 provides adequate cleaning, lubrication, and media glazing to provide exceptionally reflective parts.

Key Performance Attributes:

- Effective at 2-4 oz./gal.
- Provides adequate cleaning of light oils and lubricants.
- Excellent for ceramic media burnishing.
- Produces bright reflective finishes on all metal parts.
- Provides temporary corrosion resistance on ferrous metals.

Specifications:

Appearance:	Brownish white powder
Specific gravity:	0.8
PH concentrate:	9.2
PH 1% solution:	9.0

Caution...

TR300 compound is an industrial strength product. Avoid prolonged contact with skin or prolonged inhalation of dust.

First Aid...

For skin contact, flush affected area with clear water.
Flush eyes with water for 15 minutes.
