

A&B Deburring

TR400 Descale Compound

TR400 is an acidic, powdered descale concentrate for brightening metals in vibratory and tumble finishing equipment. TR400 also removes rust and heat treat scale and, in some applications, can remove laser recast from stainless series metals. When used on ferrous metals, always neutralize with TR300 or equivalent.

Key Performance Attributes:

- Effective at 2-6 ounces/gallon water.
- Excellent for removing tarnish and stains from soft metals.
- When used prior to burnishing compounds, can improve bright, reflective finishes on aluminum, brass, and copper.
- Very effective at removing rust and heat treat scale.
- Excellent for cleaning ceramic media.

Specifications:

Appearance:	Yellow/tan granulated powder
Specific gravity:	0.8
PH 1% solution:	3.0

Caution...

TR400 compound is an industrial strength product. Avoid prolonged contact with skin or prolonged inhalation of dust.

First Aid...

For skin contact, flush affected area with clear water.
Flush eyes with water for 15 minutes, seek prompt medical attention.
If ingested, gives several glasses of milk or water and call physician.
Avoid prolonged inhalation of dust.

Waste Disposal....

Biodegradable and drain safe for most municipalities.
Consult local authorities prior to disposal.
