TR500 Burnishing Compound

TR500 is a mildly alkaline, powdered burnishing concentrate for brightening aluminum parts in vibratory and tumbling finishing equipment. TR500 provides adequate cleaning, lubrication, cushioning, and media glazing to provide exceptionally reflective parts.

Key Performance Attributes...

- Effective at 2-4 ounces/gallon water.
- Specifically designed to produce bright reflective finishes on aluminum.
- Provides adequate cleaning of light oils and lubricants.
- Excellent for ceramic media burnishing.

Specifications...

- Appearance: White/yellow powder
- Specific gravity: 0.70
- pH 1% solution: 9.0

Caution...

TR500 compound is an industrial strength product.
Avoid prolonged contact with skin or prolonged inhalation of dust.

First Aid...

For skin contact, flush affected area with clear water.
Flush eyes with water for 15 minutes.
If irritation persists, seek prompt medical attention.
If ingested, gives several glasses of milk or water and call physician.

Waste Disposal....

Biodegradable and drain safe for most municipalities.
Consult local authorities prior to disposal.
