

TR100 / TR100AL CUTTING COMPOUND

TR100/TR100AL cutting compound is an alkaline based, powdered, abrasive cleaning concentrate for removing oils, lubricants, soils, and other contaminants in vibratory and tumble finishing equipment. **TR100/TR100AL** compound contains aluminum oxide abrasive for heavy deburring and radiusing. **TR100/TR100AL** compound exhibits excellent rust inhibit characteristics, making it an ideal compound for ferrous metal deburring. In addition to cleaning and deburring, **TR100/TR100AL** compound also keeps media sharp and free from glazing.

Key Performance Attributes:

Effective at 4-6 ounces/gallon water.

Provides excellent cleaning of grease, oils and lubricants.

Provides excellent deburring and radiusing characteristics.

Excellent for ceramic deburring applications.

Provides moderate corrosion resistance on ferrous metals.

Specifications:

Appearance:	White-gray powder
Specific gravity:	1.0
pH concentrate:	9.5
pH 3% solution:	9.2

Caution...

Avoid prolonged contact with skin or prolonged inhalation of dust. Prolonged overexposure may cause severe burns, primary irritant dermatitis and damage to the upper respiratory tract. However, when proper handling procedures are followed, this product does not present severe hazards to health.

First Aid...

For skin contact, flush affected area with clear water.

Flush eyes with water for 15 minutes.

If irritation persists, seek prompt medical attention.

If ingested, give several glasses of milk or water and call physician.

Waste Disposal....

Biodegradable and drain safe for most municipalities.

Consult local authorities prior to disposal.
