

TR700L Inhibitor and Rinse Agent

TR700L is a unique detergent compound designed to provide corrosion protection and at the same time impart a rinse free surface to the part.

TR700L is a low foam compound that has excellent wetting properties. It quickly and effectively lowers surface tension allowing for a free and uncontaminated rinse of the part.

TR700L works well in both hard and soft waters.

TR700L is used at the rate of 2 ounces per 20 gallons of water added to the rinse cycle system. Heavier contamination will require higher dilution ratios.

PHYSICAL DATA

PHYSICAL FORM	Liquid	CORROSION INHIBITION	Excellent
ODOR	Non specific	WATER SOFTENING	Good
SOLUBILITY	Complete	LUBRICITY	Excellent
COLOR	Clear	EMULSIFICATION	Excellent
SPECIFIC GRAVITY	1.05	FOAM	Low
PH WORKING SOLUTION	6.5	MEDIA COMPATIBILITY	All

WARNING: Eye & Skin Irritant

- Goggles and gloves should be worn when handling this product.
- Contact with eyes can cause tissue damage and irritation. Should contact occur, flush eyes with water for 10 minutes. Use boric acid eye wash solution if available. If irritation persists, get medical attention.
- Contact with skin should be washed with soapy water. Remove contaminated clothing and wash before reuse.

WASTE DISPOSAL:

- This product is biodegradable.
- Consult local authorities prior to disposal.
